

Biostatistics and Epidemiology Course Outline

One Credit hour, 10 Lectures, 1:30 hours for each, from 8 am to 9:30 am

At Cancer Biology Department

	Date
Lecture 1	5/10
Introduction to Biostatistics and Sampling	
Lecture 2	12/10
Variables and Scales of Measurement	
Lecture 3	19/10
Measures of Central Tendency and Location	
Lecture 4	26/10
Measures of Dispersion	
Lecture 5	2/11
Presentation of Data	
Lecture 6	9/11
Measures of Mortality and Morbidity	
Lecture 7	23/11
Overview of Study Designs	
Lecture 8	30/11
Cancer Prevention	
Lecture 9	7/12
Measures of Effect	
Lecture 10	14/12
Revision of Biostatistics and Epidemiology
